Acesobee is a Cyberport Incubatee (intake 15) at the Hong Kong Cyberport Entrepreneur Center. We aim to develop a comprehensive, affordable and portable electronic healthcare record platform to simplify and facilitate personal healthcare information management among patients, healthcare service provider and insurance company.

Starting from last year, we are selected as one of the partners for HKSAR eHealth Record Internship Programme, where our staffs would be able to attend healthcare informatics courses delivered by PolyU and Hospital Authority, and site visit to local hospitals and healthcare service providers. Meanwhile, we are looking for eHealth talents to join us for enabling the Personal Health Revolution.
